WEEKLY REVIEW OF THE MARKET.

REMARKS.—The movements in financial circles indicated nothing new during the past week, the demand being small for reissues, which were granted the usual bank rate, viz, 6 per cent. The supply of Eastern Exchange has been about equal to the demand, and we continue to quote at par buying, and 5/8 per cent. selling. There is nothing doing in New Orleans exchange. The nominal buying rate is 5/8 per cent. and the selling rate is 3/4 discount. The change in the gold market is not very important. The gold trade are pretty well supplied with currency, but money changers are not doing much in the way of counts. We quote as follows:
